COPILLOT: DIGITAL DOCUMENTATION CONNECTED

COPILLOT is a digital service **providing instant access** to the **technical documentation for operation and maintenance of your equipment**: manuals, mechanical drawings, electric diagrams, hydraulic or pneumatic circuit plans.

New ropeways installations are **automatically compatible with COPILLOT**.
Older machines may require more implementation time

- ✓ Displays the latest manufacturer documentation
- ✓ Provides the most accurate references
- ✓ Various navigation modes: map, full text search function, or browsing into a functional location structure
- ✓ Reading options: viewing mode, downloading or printing
- ✓ Available online on any web browser
- ✓ Available offline for Ipad and Windows 10 devices

"I use COPILLOT to rapidly find the manual for the equipment I'm working on. The tablet makes mobility easy and I always have the right documents at the tip of my fingers."

- Amandine Dupouy - "Nuage de Beauval" gondola lift driver
