WORLD LEADER IN ROPEWAY
TECHNOLOGY SINCE

1936

Standing by our values and the pioneering spirit that has guided us since 1936, we take action on a daily basis in favour of mobility that is more sustainable.

Fidèles à nos valeurs et à l'esprit de pionnier qui nous anime depuis 1936, nous agissons chaque jour pour une mobilité plus durable.

Fabien FELLI
POMA C.E.O.

Because humanity is the highest added value. Because your uniqueness and your differences are the source of our innovation. Because respecting the environment starts with an intimate understanding of territories, human cultures and their customs. Because the future of our planet relies on technologies leaving a small environmental footprint. POMA creates eco-efficient and eco-responsible transport solutions that provide smooth and durable mobility. To carry you where you need to go.

Parce que l'humain est la plus haute valeur ajoutée. Parce que vos particularités et vos différences sont la source de notre innovation. Parce que le respect de l'environnement commence par la compréhension intime des territoires, des cultures humaines et de leurs usages. Parce que l'avenir de notre planète appelle des technologies à faible empreinte environnementale, POMA crée des solutions de transport éco-performantes, éco-responsables et déploie une mobilité douce et durable. Pour vous transporter, là où vous vivez.

Connecting an island to a metropolis, travelling from one airport terminal to another on a cushion of air, bringing suburban districts to the city centre, flying over a river, replacing a road, a bus line, or a ferry.

In the heart of the urban jungle, POMA is turning cable transportation into the new public transportation solution. Creating a means of transportation that matches your interests more and more, every day.

POMA innovates and installs customised eco-efficient solutions serving smooth, safe and durable mobility.

Relier une île à une mégapole, se déplacer sur coussin d'air entre des terminaux d'aéroport, connecter des quartiers périphériques au centre des métropoles, survoler un fleuve, remplacer une route, une ligne de bus, un ferry... Au cœur des espaces urbains, POMA installe le transport par câble comme le nouveau mode de déplacement collectif.

Pour créer un mode de transport qui vous ressemble chaque jour davantage, POMA innove et déploie des solutions éco-performantes personnalisées, au service d'une mobilité éco-responsable, douce et durable.

POMA

CREATING CONNECTIONS

As pioneers of ropeway solutions, we have been innovating for more sustainable mobility for almost 90 years, for everyone and everywhere in the world.

For exceptional as well as everyday situations, POMA creates the connection between spaces and people.
